Eric Warwick
Hope that ASG has action for the poster of bias and hate messages: the college hires or tasks someone to identify these hate groups and what kind of attempt they have, and to communicate with the public safety on campus to keep students safe and to start to create procedures on how to deal with these groups that start growing since 2009. Also to train students on learning these groups, that way not only public safety knows about them.
Abner Pagunuran
We, with other councils, would try to go through the recommendation process there. I would also propose to ASG to also come up with some resolutions. That way we have more than two organizations come up with this issue rather than just one. The other remedy is that I can work on this with you and some of the students who are interested in this issues.
