Join TSO to Follow a Comet through the Sky

The TSO Events Committee is sponsoring a special Planetarium "Show" on the Bellevue College Main Campus. Admission is free.

Topic: "The New Horizons" show follows a comet on a journey throughout the Solar System. From breathtaking landscapes to violent volcanic eruptions to the sheer beauty of Saturn's rings, explore the planets and moons of the solar system in a majestic journey through our celestial neighborhood. Audiences will travel down to the surface of the planets, and experience what life would be like from those brave new worlds.

When: Friday, May 15th at 10:30 a.m. (need to arrive no later than 10:15, however, because the doors close and are locked at 10:30)

How to reserve: Seating will be limited and you must register in advance. To register send an email to us at info.telosso@gmail.com. You are welcome to bring a guest, but please also indicate the name of each person to be included on our reservation list. You will then receive an acknowledgement of your registration within approximately 48 hours.

Information about parking and maps to the main campus will be sent to those who register.

For more information about the planetarium, go to
